CONTENTS- Hexagonal game Board, 6 Mini Boards for Word formation, 52 Double sided Alphabet Plastic tiles, 1 Spinner Board, 6Pawns, 36 Antonyms cards, 36 Synonyms cards, 36 Spelling cards, 1 Queen Placard, 1 Sting PlaCard, Toy Crown & Detailed Instruction Sheet

The setup-

All the players line up at the starting point. One of the players acts as the Quiz Mater . We recommend a parent or a guardian to act as the quiz master. Put the 36 Antonyms, Synonyms & Spelling cards with the printed side facing downwards on the corresponding spaces of the game board. Youngest player starts first.

The Aplhabet round

Each Player passes through all the 26 alphabet Positions on the hexagonal game board. The task is to form a word starting with the Alphabet which the player is attempting. The words are formed on mini boards with the help of double sided plastic alphabet tiles. The double sided 52 tiles have 108 alphabets printed on them - 4 for each alphabet . The points earned by the player for that particular alphabet depends upon the length of the word formed by the player.Proper nouns like names of places & names of people are not allowed. Words used by a player cannot be copied by other players. Longer the word higher the score . A 3 lettered word carries 3 points, 4 lettered word carries 4 & so on.

WORD REVIEW APPEAL-

If any of the players feels that the spelling formed by a player is wrong, he can raise an objection by asking the quiz master to review & ascertain the correctness of the spelling. If the word is found to be true, the player who had raised the objection loses 5 points, but if the objection is found as valid the player who had raised the objection earns 5 points while the player who had attempted to form the word loses 5 points. A correct answer is indicated by the quiz master by raising the 'crown' placard & a wrong answer by raising the 'Bee sting' placard.

Antonyms, Synonyms & Spelling cards-

At 6 locations on the game board (after alphabets D,H,L,P,T,X) player has to spin the pointer and perform the task as indicated by the pointer. These include answering the Synonym, Antonyms or Spelling cards. Pick up the card at the top of the deck. The quiz master announces the question & spells out the options in case of Antonyms & Synonyms. The card once used by a player should be kept at the bottom of the pile. A correct answer earns you 20 points while a wrong answer does not give you any points, nor would there be a penalty for it in these rounds .As per the pointers directive, out of the 3, any 1 of the categories i.e - the Antonyms, Synonyms or the Spelling cards has to be attempted. After this round, the player moves again to the alphabet Round & attempts all the alphabets till the next Synonyms, Antonyms & Spelling Round.The game thus progresses completing all the alphabets from A to Z. The player with highest score at the end is declared as the winner and gets the Toy Crown.
